CAPE INTREPID
FY11 REPAIRS A2
(Task Order Mod 0002 Task Order Authorized Work List)

SR 1104397 – Ships #3 Reefer Container – Replace
Intent is to replace old unserviceable reefer container with new serviceable unit of equal capacity.

SR1105715 – Stern Ramp Wires, Replace
Intent is to provide all new approved wires and replace all existing worn and aged W1 and W2 wires. Work includes removal and safe disposal of old wires and installation of new wires.

SR1105873 – Regulatory Safety Equipment Survey, Support
Intent is for the Contractor to furnish all necessary labor, materials and equipment to accomplish the necessary inspections and repairs to support ABS Safety Equipment Survey of fire fighting equipment.

SR1105874 – Regulatory Life Raft Inspections, Support
Intent is for the Contractor to furnish all necessary labor, material, and equipment to accomplish the necessary inspections and repairs to support ABS recertification of life rafts.

SR1105875 – Life Boat Launching Gear Service & Certification
Intent is for the Contractor to furnish all necessary labor, material, and equipment to accomplish the necessary inspections and repairs to support certification of life boat launching gear.

SR1106892 – Port & Stbd Boiler Silencers
Intent is to fabricate and provide new Port & Stbd Boiler Super Heater Vent Silencers to meet local industrial noise limits and reduce noise complaints during Boiler Light Off.

SR1107091 – Pump, Salt Water Service, Repair
The intent of this item is to make repairs to #2 S.W. Service pump to meet ABS Regulatory standards.

SR1107169 – Marine Chemist, Tank Inspection Support
Intent is to provide for the services of a Marine Chemist to certify designated tanks “Safe for Entry” to conduct ABS required gauging and inspections.

SR1107228 – Superheater Vent Silencer Installation
The intent is to provide for the installation of owner supplied Superheater Vent Silencers as per specification.

SR1107259 - Main Switchboard K.W. Meter Installation
The intent of this item is to install Smart KW Meter to monitor vessel power consumption during ROS to meet MARAD requirement.

SR1107399 - VDR Installation Repairs

Intent is to repair / Replace malfunctioning equipment and to meet requirements as per specification.

SR 4340582 - Repair Engine Room Lighting, Lower Level

Intent is to replace worn and aged light fixtures for fixtures with modern solid state ballast, crystal light diffusers, high output bulbs and uniform bulb size.

SR4344478 – Magnetic Compass, Service

The intent is to provide the necessary labor, material, equipment and technical expertise to service the ship's magnetic compass as per specification.

SR4344571 – Garbage Compactor, Install

Intent is to install vessel supplied marine grade offshore compactor/bailer in the garbage disposal room.

SR4344710 – Ships Service Air Compressor, Install

Intent is to install vessel supplied air compressor

SR4345008 – Lagging & Insulation, Repairs

Intent is to repair or replace designated fixed and removable pad insulation material on the PORT and STBD BLR, LP and HP turbines and main STM Lines to restore thermal efficiency and reduce ambient heat in the engine room

SR4345010 – House Plumbing Repairs

Intent is to repair or replace designated worn and aged house plumbing. Work to include shower valves, water supply stop valves in the galley and for each deck, hose bibs on the outside of the house and other pipe and fitting as designated.

SR4345011 – Fueling Port Door, Modify

Intent is to modify the existing fueling side port door to swing inward to improve safety for operating personnel and risk of damage. Work includes new door, operating hardware and approved installation.

SR4345012 – Crew Elevator, Repair/Test/Certify

Intent is to provide for annual inspection, repair, test and certification of the house elevator and systems.

SR4345015 – Main LO Cooler – Clean/Service

Intent is to open, inspect, clean, repair, test and return to service the oil cooler tube bundle.

SR4345016 - Boiler Burner Register Cones, Repair/Service

Intent is to shape boiler burner register cones to reestablish proper shape and angle and repair any material damage.

SR4345017 – Stern Ramp Hinge, Inspect / Repair

Intent is to open, inspect and repair as required the designated ramp hinges.

SR4345743 - #2 Deep and #3 Upper Ballast Tank Valves, Replace

Intent is to provide for new approved replacement valves and installation of new valves. Work includes safe removal and disposal of existing valves and hardware.

SR4345744 – Engine Control Room AC Cooling, Repair

Intent is to provide for supply and installation of a new air handler for the engine room control console to meet the cooling demand necessary to protect sensitive electronics

SR4345746 – Fire / Bilge Pump Motor, Repair

Intent is to provide for the repair or replacement of the Fire / Bilge Pump Electric Motor

SR4345747 – Gland Exhaust Fan & Motor, Repair

Intent is to provide for the removal, complete overhaul and reinstallation of the electric motor and fan to include new bearings, balance and testing.

SR4345748 – Jacking Gear Motor, Repair

Intent is to provide for removal, complete repair or replacement of the designated electric motor, installation and testing as per specification.

SR4345749 - #1 Mooring Winch Hydraulic Pump Electric Motor, Repair

Intent is to provide for the removal, repair, installation and testing of the No. 1 Mooring Winch Hydraulic Pump Electric Motor

SR4345750 – Cargo Hold Exhaust Fan E-1-208-2, Repair

Intent is to provide for the complete disassembly, clean, overhaul, repair, surface prepare and coat the designated Cargo Hold Fan components and housing to restore to reliable service condition per specification.

SR4345751 – Cargo Hold Supply Fan S-1-163-0, Repair

Intent is to provide for the complete disassembly, clean, overhaul, repair, surface prepare and coat the designated Cargo Hold Fan components and housing to restore to reliable service condition per specification.

SR4345752 – Cargo Hold Exhaust Fan E1-196-1, Repair

Intent is to provide for the complete disassembly, clean, overhaul, repair, surface prepare and coat the designated Cargo Hold Fan components and housing to restore to reliable service condition per specification.

SR4345753 – Cargo Hold Supply Fan S1-66-1, Repair

Intent is to provide for the complete disassembly, clean, overhaul, repair, surface prepare and coat the designated Cargo Hold Fan components and housing to restore to reliable service condition per specification.

SR4345771 – Main Switch Board Cleaning

Intent is to provide the necessary labor, material and equipment to clean Main Switch Board and tighten all connections. Condition Report to be provided and testing to be done to satisfaction of the CE upon completion.

SR4345772 – Main Switchboard Panel #6 Breakers, Replace

Intent is to provide for the service, cleaning and replacement of all breakers of the designated Main Electrical Buss Panel as per specification. Work required due to age, wear and tear. Breakers and panel components are at the end of reliable service life.

SR4345773 – Emergency Switch Board Cleaning

Intent is to provide the necessary labor, material and equipment to clean the Emergency Switch Board per specification.

SR4345774 – Main Switch Board Dust Cover - Install

Intent is to provide the necessary labor, material and equipment to install Plexiglas Safety & Dust Cover on the Main Switch Board per specification.

SR4345775 – Emergency Switch Board Dust Cover - Install

Intent is to provide the necessary labor, material and equipment to install Plexiglas Safety & Dust Cover on the Emergency Switch Board per specification.

SR4345781 – Port Boiler Forced Draft Fan Motor Controller, Repair

Intent is to provide for replacement of the existing Motor Controller components with new Soft Start Controller and components for this critical equipment. Existing Controller and components are at the end of reliable service life.

SR4345782 – Stbd Boiler Forced Draft Fan Motor Controller, Repair

Intent is to provide for replacement of the existing Motor Controller components with new Soft Start Controller and components for this critical equipment. Existing Controller and components are at the end of reliable service life.

SR4345787 – 450 Volt Electrical Panel P470, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life.

SR4345788 - 450 Volt Electrical Panel P408, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life.

SR 4345789 – 450 Volt Electrical Panel P436, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life

SR4345790 - 450 Volt Electrical Panel P471, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life

SR4345791 – 110 Volt Electrical Panel L137, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life

SR4345792 - 110 Volt Electrical Panel P164, Repair

Intent is to replace the current distribution panel with new outer and inner panel, splash guard, latch, power bus and circuit breakers. Current panel is at the end of reliable service life

SR4345821 – Fire Damper 1-159-1, Repair

Intent is to provide for inspection, repair and test of Fire Damper 1-159-1 per specification

SR4346592 - PORT Fueling Door Indicating Lights, Install

The intent is to provide the necessary labor, material, equipment and technical expertise to install door state indicator lights as per specification

SR4346653 - ABS EDG DO Fuel Filter, Change

The intent of this work item is to install new owner supplied fuel filters on Emergency Generator Diesel Engine to meet ABS requirements.

SR4346678 – Regulatory Gauging Survey, Support

Intent is to provide qualified Contractor to conduct ABS required steel thickness gauging and report as needed to meet ABS 5 Year Special Survey requirements

SR4346746 – Marine Chemist for Tank Inspections

Intent is to provide for the services of a Marine Chemist to certify designated tanks “Safe for Entry” to conduct ABS required gauging and inspections.

SR4346747- Regulatory CMS pump Inspection, Support

Intent is to provide qualified Contractor support to open and inspect designated pumps as required by ABS to meet Continuous Machinery Survey requirements

SR4346748 – Regulatory Line Shaft & Thrust Bearing Inspection, Support

Intent is to provide qualified Contractor support to open and inspect main propulsion line shaft and thrust bearing as required by ABS to meet Continuous Machinery Survey requirements.

SR4346749 – Technical Representative for Line Shaft & Bearing Inspection

Intent is to provide qualified Technical Representative to direct separate Contractor support used to open and inspect main propulsion line shaft and thrust bearing as required by ABS to meet Continuous Machinery Survey requirements.

SR4346752 - Marine Chemist, Provide

The intent is to provide the necessary labor, material, equipment and technical expertise to provide a Marine Chemist for spaces as described in specification.

SR4346760 - Galley Reefer Equipment, Repair

The intent is to provide the necessary labor, material, equipment and technical expertise to repair galley refrigeration equipment as described in the specification.

SR4346778 – Marine Chemist, Tank Inspection Support

Intent is to provide for the services of a Marine Chemist to certify designated tanks “Safe for Entry” to conduct ABS required gauging and inspections.

SR4346816- HP Turbine Bearing, Repair

The intent is to provide the necessary labor, material, equipment and technical expertise to rebabbit a HP turbine bearing.

SR4346880 - Marine Chemist, Hull Gauging Support

Intent is to provide for the services of a Marine Chemist to certify designated confined spaces “Safe for Entry” to support ABS required steel thickness gauging and inspections.

SR4346891 - #11 DB Suction Piping And Bubbler Piping

The intent is to provide the necessary labor, material, equipment and technical expertise for to replace suction piping and bubbler piping.

SR4346892 – Steel Plate Insert Backing Plate, Remove

The intent is to provide the necessary labor, material, equipment and technical expertise to remove insert backing plates and weld as per ABS requirements.
