Revised Work Item List

The purpose of this modification is to add the following SRs: 3001772 FD Fan Bailey Actuators, 3801019 P/S Cascade Tank monitoring system replacements, 3801340 Provide and Install Trash compactor, and, 3001944 P/S Boiler, Install fuel flow meters.

ADD SR 3001772 FD Fan Bailey Actuators. The intent of this SR is to repair the existing Bailey actuators (4) used to operate the port and starboard forced draft fan variable inlet vanes do not operated as designed due to the worn fulcrum bearing and worn main pneumatic cylinders.

ADD SR 3801019 P/S Cascade Tank monitoring system replacements. The intent of this SR is to provide labor, material, and equipment to remove the installed Port and Stbd Cascade tank contaminated drain monitoring system. Then, supply and install the specified replacement unit noted below, both mechanically and electrically. System is to be interfaced with the Engineers Alarm Panel

ADD SR 3801340 Provide and Install Trash compactor. The intent of this item is to install one (1) Kenbay Model K-100 vessel supplied Marine Trash Compactor in the location specified.

ADD SR 3001944 P/S Boiler, Install fuel flow meters. The intent of this item is to provide labor and materials to supply and install two (2) totalizing meters, one (1) for each boiler, in the Engine Room console to display the total fuel flow and instantaneous fuel flow at any given time. The new meter(s) will display in Total Gallon and GPM (HFO& DFM). Also, add a contact block to the existing HFO/DFM fuel oil selector switch and provide the proper math to the new meter based on which fuel was selected. Contractor to complete all Yokogawa programming and testing of the new meters using a 4-20mA generator to simulate fuel oil flow.

SR 3800777, Tech Rep, Provide for P/S Turbine & SSTG ABS CMS. The intent of this item is to provide a Technical Representative to oversee and direct the inspection of the Port and Stbd HP & LP turbines (SR 3800779) and the Port and Stbd SSTG's (SR 3800778) for the ABS CMS #8 surveys. Also, the Tech Rep will be responsible for coordinating with the Vessel Manager when equipment is ready for ABS Surveyor attendance. Provide a separate, detailed condition report of each piece of equipment, in electronic format, to the MLL Vessel Manager upon completion of all inspections.

SR 3800655, Telephone exchange system. The intent of this work is to repair the vessel's internal communication telephone system.

SR 3800789, NO. 1 bilge oily water separator (OWS) . The intent of this SR is to provide labor and materials to perform an annual inspection of the Oily Water Separator. Also, contractor is to calibrate the OWS monitor and prove the proper operation of the OWS to attending ABS and/or USCG surveyors. Contractor to provide a spare, calibrated monitor to the vessel if the vessel's monitor fails calibration and must be sent for repairs.

SR 3800764, Deck Drain Systems. Intent of this work is to repair 05 level port and stbd deck drains.

SR 3800591, Renew vessel weather tight & fire doors. Intent of this work is to renew vessel fire doors that cannot be repaired/corrected .

SR 3800768, Renew shell plating, decks, bulkheads. Intent of this work is to replace steel deck plating at stbd stack 08 level.

SR 3800767, Renew shell plating, decks, bulkheads. The intent of this work is to replace wasted steel plating on port and stbd cargo hold bulkheads.

SR 3800592, Dehumidification systems. The intent of this item is to provide OEM tech rep to repair the dehumidification systems on the vessel. Also, tech rep is to prepare and submit a service report on the systems, along with any recommended repairs.

SR 3800694, Piping & valves-main steam system. Intent of this work is to perform insulation repairs/ replacement as identified by ships force insulation survey.

SR 3800594, NO.1 evaporator brine pump. Intent of this work is to refurbish engine room motor controllers.

SR 3800613, port main circulating pump. Intent of this work is to recondition port and stbd main circulating pump controllers. Work to include inspection/replacement of damaged wiring, re-conditioning of cabinet internals and externals, replacement of control switches and indicating lights.

SR 2800778, P/S SSTG's, Open & inspect for ABS survey. The intent of this SR is to provide all labor, material and equipment required to open and inspect the PORT & STBD SSTG's to satisfy ABS Survey CMS #8 requirements. A service report will be furnished to the MLL Port Engineer. The scope of all work accomplished, as well as all applicable clearances and readings shall be detailed.

SR 3800779, port hp main propulsion turbine. The intent of this SR is to provide all labor, material and equipment required to open and inspect the Port and Starboard HP & LP turbines for ABS CMS Survey #8. All clearances are to be taken before, during

removal, and again after installation. All procedures shall be in accordance Tech manual T9230-AA-MMC-010/81893 and General Electric specifications.

SR 3800683, Outboard Bilge/Ballast Pump Motor Rewind. Intent of this work is to repair the end bell housings of the outboard ballast pump motor.

SR 3800707, Port Side Door Platform & Cantilever. Intent of this service request is to repair three (3) hinge bearing on the Port Side port Hinged Platform.
